Mirage is the most modern of machines for solving all your floor washing problems on any type of floor: carpeting, majolica tile, wood, brick, marble, florentine brick, relief tiles, gres, linoleum, rubber floor coverings and rugs. Easy handling sets Mirage apart from other floor washers: just lower the handle and guide the machine. The machine washes and collects all the dirt, leaving any type of surface clean and dry. Mirage eliminates the need for the dry foam normally needed for washing your carpeting. Mirage also waxes and polishes your floors. Mirage is patented worldwide; it is guaranteed for one year, but will last a lifetime!
