Large 200mm Super-Quiet Wheels

NuKeeper Flexi Front NKL - low

Each and every NuKeeper application has its own needs and requirements. The NuKeeper NKL models incorporate all of the professional design features of the NuKeeper range but are sized to suit small to medium sized establishments.

The NKL series are all based on our Hi-mobility AT chassis, incorporating 200mm soft ride castors and all round bump protection. There is a choice between the innovative Flexi Front with hideaway front cover and our Hard Front cabinet design. Both designs are available in 3 variations in order to provide additional laundry bag facilities.

NKL Flexi Front

NKL-16/FF

(Open - one bag) Full twin capacity, hideaway front cover system, hi-mobility soft ride chassis, 3 internal storage drawers, 100-litre laundry bag extension.

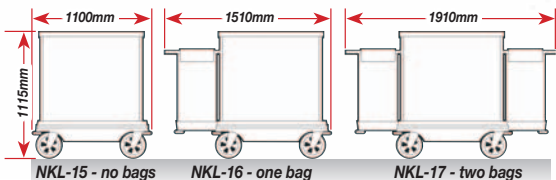

NKL Flexi Front

NKL-17/FF

(Open - two bags)

All the features of the NKL-16 but with a second 100-litre laundry bag extension kit.
