

The MidMop Story

The new Twin 16L Mopping system

A for... Design

Professional specification and design results in robust construction, maneuverability and ease of use for the operator.

A for... Innovation

The patented Allmops press provides the best in professional mopping, allowing convenient access to the clean and dirty water buckets. The Allmops press pressure plate design is suitable for all types of mops.

A for... Performance

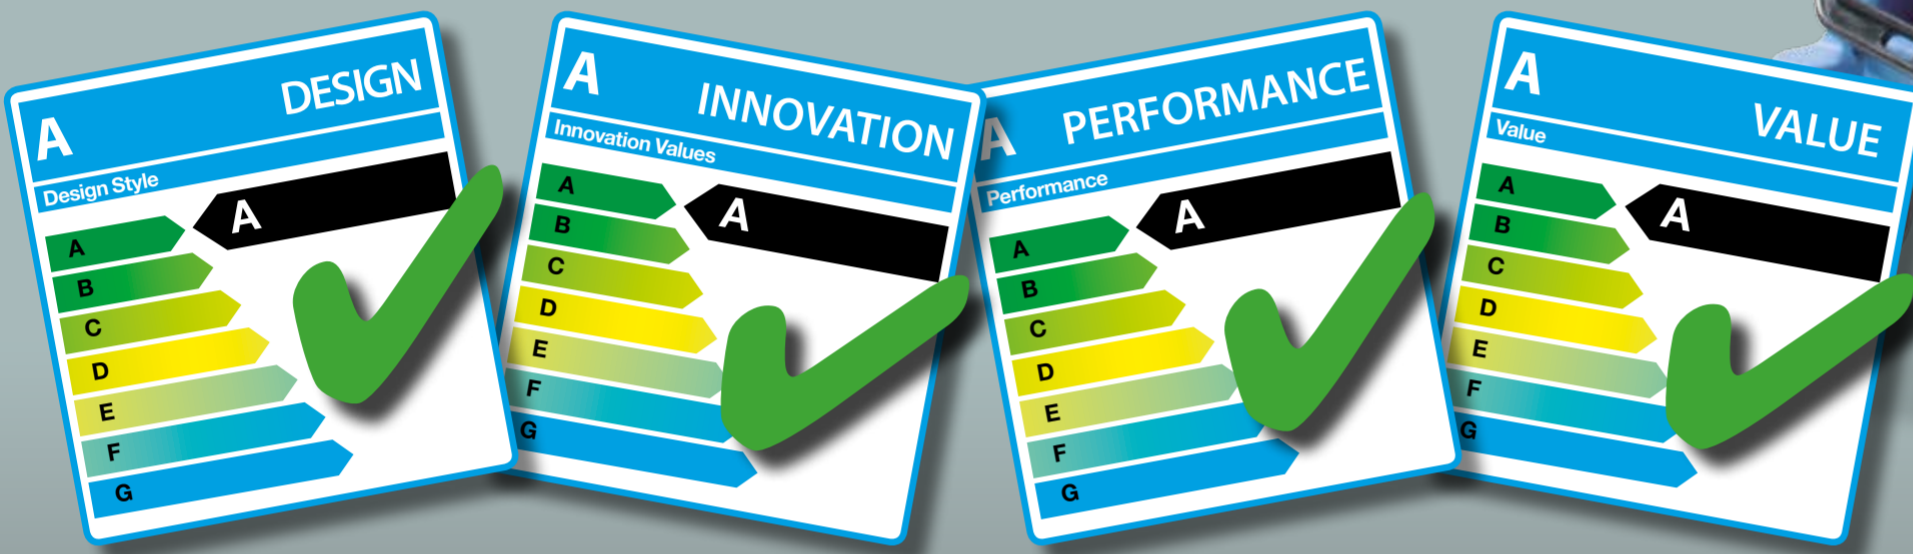

The Nylo Twin 40cm Flat mop is designed for ease of use, greater floor surface coverage and the unique advantage of being reversible allowing use of both sides resulting in greater efficiency.

A for... Value

Professional specification combined with high quality construction and materials create the very best in value for the professional user. A range of accessories allow the Midmop to be specified precisely according to the environment and user needs.

The new MidMop... Simple, Strong and Economic

Yes two mops are really better than one!

The Monsoon Kentucky Mop

- Exclusive fibre, does not support bacteria.
- Banded and looped to prevent tangle and linting.
- High water content and pickup capacity.

The NyloTwin 40 Mop

- The new reversible twin nylo stripe "Hang On" Flat Mop
- Easy to use
- Better performance
- Longer life

Mopping technology in its finest form

Optional 5L Swing Pail

The new NyloTwin 40, two mops in one!

Optional on-board mop storage stand

Suitable for Kentucky 450g or 40cm Flat mops with full access to both buckets

Optional mop handle system

Go anywhere and always ready...

The Midmop is always on hand and easily stored, the compact design provides a go anywhere twin bucket mopping system.

Advanced Mopping...

Internal water discharge diverter keeps your clean water... clean, as it should be. Dirty water is simply diverted to the 16L red dirty bucket.

Two Mops in one...

The new Nylo Twin 40 Flat mop is reversible so can be used on both sides giving two mops in one ...simple and efficient.

All aboard...

The 5L Swing Pail can be added to carry those extra cleaning essentials creating a versatile cleaning system. The clever on-board mop storage keeps everything neat and tidy when in transit and when stored.

How you need it...

Suitable for Kentucky or Flat mops the Midmop is ready to work. Access to both buckets is easy whichever mop you choose to use. A range of accessories allow the user to create a Midmop unit that precisely suits the environment to be cleaned.

Patented water discharge diverter
